EXPERIENCE

Tandem Diabetes Care, Remote
Software Tester
Software Tester II
Sr Software Tester
Software Test Engineer

February 2021 - January 2025

Implemented the use of feature files for writing human readable tests that seamlessly integrate with different test automation frameworks.

Established the practice of 3 Amigos Agile meetings to encourage clear communication and cooperation between Product, Engineers, and Testers.

Lead testing efforts on multiple software launches to domestic and international markets.

Conducted root cause analysis for critical defects and implemented preventive measures, reducing defect introduction to production.

Developed and conducted comprehensive training sessions on software testing methodologies, tools, and best practices for junior testers and new team members.

Provided one-on-one mentorship to junior testers, offering guidance on test case creation, execution, defect documentation, and automation techniques.

Collaborated closely with Test Automation Engineers to assist in the implementation of Cypress automated testing framework, resulting in a significant reduction in manual testing efforts and increased test coverage.

Planned and implemented test strategy restructure to improve automated test performance and test coverage resulting in better maintainability

EDUCATION

UCSD, San Diego, CA — *Certificate*
Coding Boot Camp in web development methods, 240 hours completed.

Virginia College, Jacksonville, FL — *AAS Network Engineering*

SKILLS

Software Development & Testing

Javascript | Typescript

React | Node | Cypress | Jira | Agile

Document Control Practices

Leadership, Training, & Mentorship

PROFESSIONAL TRAINING

Leadership Course
Clifton Strengths, Emotional Intelligence, Communication, Effective Feedback
